Competitor Bulletin 11-01

To: All Competitors

From: John Andersen, Director of Competition

Date: December 1, 2010

Re: Cooper Tires Winterfest Regulations Adjustments

This Bulletin is in effect only for the Cooper Tires Winterfest. It outlines the specific Articles of the 2011 USF2000 Series Regulations that will be modified or set aside for Cooper Tires Winterfest. Article number(s) are succeeded by applicable note(s).

14.6.1.1: Aero packages other than the Van Diemen 2010 package must be declared for use in the entirety of Cooper Tires Winterfest. Competitors having participated in the 2010 USF2000 Championship and having declared an aero package must use only that declared aero package or only the 2010 Van Diemen Aero Package.

14.6.5: Not in effect for Cooper Tires Winterfest

14.6.14: Rule remains in effect for Van Diemen or any declared aero package

14.12.10: Maximum of two (2) tires for Cooper Tires Winterfest

14.14.8: Not in effect for Cooper Tires Winterfest

14.14.9: Not in effect for Cooper Tires Winterfest

14.19.2: Specific location not in effect for Cooper Tires Winterfest

14.23.1: Also Zetec engines built only by Elite or Quicksilver will be permitted

14.23.2: Not in effect for Cooper Tires Winterfest

14.26.2: Only one (1) dry-break in the fuel supply line (as during 2010) will be required at Cooper Tires Winterfest and only of Championship class cars

14.28.2: Only in effect for MZR engined cars at Cooper Tires Winterfest

14.29.1: Only in effect for MZR engined cars at Cooper Tires Winterfest

14.34.3: 2010 GCR for Cooper Tires Winterfest

14.34.10: Not in effect for Cooper Tires Winterfest

Note: All competitors are strongly encouraged to consider the implications of certain abeyances for Cooper Tires Winterfest. Any rules not in effect at Cooper Tires Winterfest will, however, have implications for the 2011 regular season. It would be wasteful to incur expense and effort to compete at Cooper Tires Winterfest to the rules as per the Bulletin and then be required to repeat expenditures of time and effort to comply in the 2011 season (for example, seats – 14.14.8 & 14.14.9). If you already have parts complying with the rules as per the Bulletin, by all means, use them for Cooper Tires Winterfest, but don't make lesser parts for Cooper Tires Winterfest that you will have to remake to fit the rules for the regular season.
