CARL HAAS

AUTOMOBILE IMPORTS INC.

Following are the part #s for the 2010 Dynamic Suspension dampers that are legal for the USF2000 Championship class

DF0398791	LH Front 1640 Shim Damper, Spec F2000	$1275.00 ea
DF0399091	RH Front 1640 Shim Damper, Spec F2000	$1275.00 ea
DF0398891	LH Rear 1640 Shim Damper, Spec F2000	$1275.00 ea
DF0398991	RH Rear 1640 Shim Damper, Spec F2000	$1275.00 ea

Above dampers are the same specifications as what was used in the previous F2000 series

Carl Haas Auto strongly recommends that teams send their dampers back ASAP for rebuilds and possible replacement of any anti-tamper seals or ID Chips that may have become worn or broken over the past several seasons of running or storage. Spec rules will be strictly enforced and any dampers with damaged seals or chips will not be allowed to run.

Damper rebuilds will be $150.00 per damper plus the cost of any parts.

Carl Haas Auto will be able to supply brand new 1640 dampers for the 2010 season. Please contact Alan O'Leary for availability as soon as possible so we can plan our production requirements. Shop #847-634-8200 e-mail haasautoao@aol.com

We will also be producing a new spec Dynamic Suspension DSSV Spool Valve Damper for the USF2000 series. This damper is in its final design stage and we will have part #s and delivery information as soon as they are available.

Thank you,
Carl Haas Auto Imports
